## USPH Corrective Action Report

Vessel: Norwegian Spirit

Port: Seattle

Date of Inspection: September 11<sup>th</sup>, 04

Prepared by: Rob Brand, F&B Director

Julie Ampoloquio, Sanitation Supervisor October 21<sup>st</sup>, 04

Date prepared: October 21<sup>st</sup>, 04

| Item<br>No | Ref# | Site                       | Description  | Corrective Action<br>Taken  |
|------------|------|----------------------------|--|---|
| 1          | *    | COFFEE BAR                 | TWO BOTTLES WERE FOUND SETTING ON THE BAR COIUNTER BEHIND THE HANDWASHING SINK   | Human Error, Crew have<br>been trained and made<br>aware of the non-<br>conformity. |
|            |      |                            | Discontinue storing food service equipment in close proximity to the hand washing sink.  |   |
| 2          | 20   | FOOD SERVICE<br>GENERAL    | THE INSIDE BOTTOMS OF THE TILTING PANS HAS DIFFICULT TO CLEAN SURFACES WHERE THE HEATING PLATE JOINS THE STAINLESS STEEL SIDES   | Tilting Pans repaired,<br>10/16/04  |
|            |      |                            | It was stated that the repair parts for the tilting pans were on order   |   |
| 3          | *    | MAIN GALLEY/<br>HOT GALLEY | THE WASTE CONTAINER AT THE HANDWASHING SINK STATION NEAR THE RANGE CONTROLPANEL MT 10P14-Q19 HAD PAPER TOWELS THAT WERE HEAVILY SOILED WITH OLD GREASE AND FOOD RESIDUE  | Human Error, Crew have<br>been trained and made<br>aware of the non-<br>conformity. |
|            |      |                            | Because these waste containers are not required to be covered heavily food soiled items need to be discarded in covered containers. Discontinue discarding paper towels that are used to clean up food spills in hand washing station waste containers |   |
| 4          | *    | MAIN GALLEY/<br>HOT GALLEY | THE HEAT SINKS AND THE STAINLESS STEEL COVERS OF RANGE CONTROL PANEL 10P14 – Q19   | Human Error, Crew have been trained and made  |

|   |    |   | WERE FOUND SOILED WITH GREASE AND FOOD DEBRIS. IT APPEARED THAT THESE COVERS HAD NOT BEEN REMOVED RECENTLY FOR CLEANING.  | aware of the non-<br>conformity.   |
|---|----|---|---|--|
|   |    |   | Ensure that these areas are routinely cleaned to prevent the build up of grease and food residue.   |  |
| 5 | *  | MAIN GALLEY/<br>HOT GALLEY                  | THE REFRIGERATOR DOOR GASKET ON UNDERCOUNTER REFRIGERATOR G-06051-F08 WAS TORN MAKING THE AREA DIFFICULT TO CLEAN.  | Chief Refer. Engineer, replaced the gasket.                              |
|   |    |   | Replace the torn gasket   |  |
| 6 | *  | FOOD SERVICE<br>GENERAL                     | THE STORAGE SHELVES INSIDE THE WALK-IN REFRIGERATOR HAD COME DETACHED FROM THE BULKHEADS IN THE WALK-INS. THERE WAS AN ATTEMPT TO USE SEALANT TO RETTACH THE SHELVES  | Corrected. The shelves have been welded.                                 |
|   |    |   | Permanently attach the shelving units to the bulkheads.   |  |
| 7 | *  | MAIN GALLEY/<br>ROOM SERVICE<br>PREPARATION | THE TECHNICAL COMPARTMENTS OF THE NEW UPRIGHT REFRIGERATORS WERE SOILED WITH DUST, METAL SHAVINGS AND OTHER DEBRIS. THERE ARE DRAIN HOLES FROM THESE SPACES WHICH DRAIN DOWN THE FRONTS OF THE REFRIGERATORS. | Human Error, Crew have been trained and made aware of the nonconformity. |
|   |    |   | Clean the technical areas of these units.   |  |
| 8 | 26 | MAIN GALLEY/<br>POTWASH                     | NUMEROUS PREVIOUSLY CLEANED SHEET PANS<br>AND SEVERAL PREVIIOUSLY VLEANED BAIN<br>MARIE PANS WERE FOUND SOILED WITH FOOD<br>RESIDUE AND STORED AS CLEAN.  | Corrected. Tin Sheets have been replaced with new ones.                  |
|   |    |   | Food-contact surfaces of equipment and utensils shall be clean to sight and touch.  |  |
| 9 | *  | MAIN GALLEY/<br>WINDOWS<br>DISHWASH<br>AREA | THERE WAS NO DATA PLATE ON THE FLIGHT TYPE DISHWASHING MACHINE. THERE WAS A DATA PLATE ON THE CONTROL PANEL BUT THIS PANEL WAS LOCATED OYTSIDE OF THE AREA.   | Data Plates have been affixed to the machines.                           |
|   |    | _   | A ware washing machine shall be provided with an easily accessible and readable date plate affixed to the machine by the manufacturer that indicates the machine's design and operating specifications.       |  |

| 10 | *  | DINING ROOMS                          | THE LIGHT LEVELS OVER THE WAITER STATIONS COULD NOT BE RAISED TO AT LEAST 220 LUX.   | Corrected, has been changed   |
|----|----|---------------------------------------|--|---|
|    |    |                                       | Provide additional lighting over these waiter station so<br>the light level can be raised to at least 220 lux for<br>cleaning.   |   |
| 11 | *  | OFFICERS MESS                         | THE LIGHT LEVEL OVER THE BUFFET LINES WAS LESS THAN 220 LUX.   | Corrected, has been changed.  |
|    |    |                                       | Provide additional lighting to ensure 220 lux in these areas.  |   |
| 12 |    | OFFICERS MESS                         | THE BULK MILK DISPENSING TUBE EXTENDED APPROXIMATELY 3 INCHES BEYOND THE CHILLED DISPENSING HEAD.  | Human Error, Crew have been trained and made aware of the nonconformity.  |
|    |    |                                       | The bulk milk container dispensing tube shall be cut on<br>the diagonal leaving no more than 3 centimeters (1 inch)<br>protruding from the chilled dispensing head.  |   |
| 13 | 20 | FOOD SERVICE<br>- GENERAL             | THE DISPENSING ACTUATORS OF THE ICE DISPENSING UNITS WHERE NOT DESIGNED FOR SANITARY DISPENSING OF ICE. THEIR DESIGN REQUIRED CONTACT WITH THE LIP CONTACT SURFACES OF THE GLASSES. THERE WAS NO SIGN PROHIBITING REFILLING OF GLASSES | Corrected. Signage has been provided informing guests not to refill used glasses. Crew have been trained and made aware of the non-conformity, to inform guests to use clean glasses. |
|    |    |                                       | Install sanitary actuating mechanisms on the ice dispensers.   |   |
| 14 | *  | PROVISIONS / MEAT AND POULTRY FREEZER | SEVERAL NON-POTABLE ICE BLOCKS AND ICE<br>CARVINGS WERE FOUND IN DIRECTO CONTACT<br>WITH BOXES OF FROZEN MEATS   | Human Error, Crew have<br>been trained and made<br>aware of the non-<br>conformity.   |
|    |    |                                       | Provide separation between ice blocks and food containers.   |   |
| 15 | *  | RAFFLES<br>TERRACE BAR                | A PORTABLE ICE CREAM SERVICE AREA WAS<br>SET UP IN THIS AREA AND THE NEAREST<br>HANDWASHING STATION WAS MORE THAT 8 M<br>(25 FEET) AWAY.   | Ice cream service area has been relocated to proximity of no more than 8 m away from a hand washing sink.   |

|    |   |              | Provide hand washing facilities within 8 meters any food  |                          |  |                                      |  |
|----|---|--------------|---|--------------------------|--|--------------------------------------|--|
|    |   |              | service areas   |                          |  |                                      |  |
|    |   |              | THE MANUAL TEST KIT USED FOR TESTING THE                  | DPD1 Tablets for         |  |                                      |  |
|    |   | POTABLE      | CHLORINE RESIDUAL DURING ACTIVE                           | measuring free chlorine  |  |                                      |  |
| 16 | * | WATER –      | BUNKERING HAD ONLY THE TEST POWDER FOR                    | content are now onboard  |  |                                      |  |
|    |   | BUNKERING    | TOTAL CHLORINE.   | and in use.              |  |                                      |  |
|    |   |              | Ensure that free chlorine residual powder reagent is used | dia ii use.              |  |                                      |  |
|    |   |              | for the portable water bunker chlorination test.          |                          |  |                                      |  |
|    |   |              | THE MANUAL TEST KIT FOR CHLORINE                          | DPD1 Tablets for         |  |                                      |  |
|    |   | POTABLE      | CONCENTRATION AT THE DISTANT POINT OF                     | measuring free chlorine  |  |                                      |  |
| 17 | * | WATER –      | THE POTABLE WATER DISTRIBUTION SYSTEM                     | content are now onboard  |  |                                      |  |
| 17 |   | DISTRIBUTION | WAS ONLY EQUIPPED WITH TOTAL CHLORINE                     | and in use.              |  |                                      |  |
|    |   | DISTRIBUTION | TEST POWDER.  | and in use.              |  |                                      |  |
|    |   |              | Ensure that only free chlorine reagent powder is used for |                          |  |                                      |  |
|    |   |              | the distribution chlorination manual test.                |                          |  |                                      |  |
|    |   |              | THE CROSS-CONNECTION CONTROL PROGRAM                      | Corrected. Inspection    |  |                                      |  |
|    |   |              | INCLUDED TESTING AND RECORD KEEPING FOR                   | program has been         |  |                                      |  |
|    |   |              | REDUCED PRESSURE ASSEMBLY BACKFLOW                        | Implemented.             |  |                                      |  |
|    |   |              | PREVENTION DEVICES, INSPECTION AND                        | imprementeu.             |  |                                      |  |
|    | * | POTABLE      | RECORD KEEPING FOR SOME LAUNDERETTE                       |                          |  |                                      |  |
| 18 |   | *            | *   | *                        | WATER –                                | BACKFLOW PREVENTERS, BUT THER WAS NO |  |
| 10 |   |              |   | BACKFLOW                 | RECORD KEEPING OR SCHEDULED INSPECTION |                                      |  |
|    |   | PREVENTION   | OF MOST OF THE SMALLER BACKFLOW                           |                          |  |                                      |  |
|    |   |              | PREVENTERS INSTALLED IN CABINS,                           |                          |  |                                      |  |
|    |   |              | TECHNICAL SPACES AND OTHER AREAS                          |                          |  |                                      |  |
|    |   |              | THROUGHOUT THE SHIP.                                      |                          |  |                                      |  |
|    |   |              | Ensure that the various backflow preventers throughout    |                          |  |                                      |  |
|    |   |              | the ship are identified and recorded and establish an     |                          |  |                                      |  |
|    |   |              | inspection program, with frequencies and records          |                          |  |                                      |  |
|    |   |              | maintained.   |                          |  |                                      |  |
|    |   |              | THE SERVING UTENSILS USED FOR REACHING                    | Corrected. Tongs have    |  |                                      |  |
|    |   |              | FOODS ON THE BACK SIDE OF THE BUFFET LINE                 | been changed to 18 inch. |  |                                      |  |
|    |   | LIDO –       | WERE TOO SHORT AND CAUSED PASSENGERS                      | _                        |  |                                      |  |
| 19 | * | RAFFLES      | TO REACH WELL INTO THE FOOD LINE AND                      |                          |  |                                      |  |
|    |   | BUFFET       | SOMETIMES DROP THE UTENSILS. THIS IS                      |                          |  |                                      |  |
|    |   |              | SOMEWHAT IMPROVED FROM THE MAY 2004                       |                          |  |                                      |  |
|    |   |              | INSPECTION, BUT IS STILL A REPEAT ITEM.                   |                          |  |                                      |  |
|    |   |              | Evaluate all self-service buffet items and access and     |                          |  |                                      |  |

|    |    |               | determine the appropriate size and length of serving     |                                 |
|----|----|---------------|--|---------------------------------|
|    |    |               | utensil for each pan.                                    |                                 |
|    |    |               | HEAVY CONDENSATION WAS NOTED ON THE                      | It has been reported to         |
|    |    |               | DECKHEAD AT THE CLEAN END OF BOTH THE                    | <b>Technical Superintendent</b> |
|    |    | DA EEL EG     | CONVEYOR DISHWASH AND GLASSWASH                          | to be corrected next Dry        |
| 20 | *  | RAFFLES –     | MACHINES. WATER WAS BEGINNING TO DRIP                    | Dock.                           |
|    |    | DISHWASH      | DOWN FROM THE DECKHEADS TO THE CLEAN                     |                                 |
|    |    |               | LANDING BELOW. THE OPERATION WAS                         |                                 |
|    |    |               | STOPPED TO ALLOW FOR A WIPE DOWN OF THE                  |                                 |
|    |    |               | DECKHEAD.  |                                 |
|    |    |               | Remove heavy condensate from deck heads manually in      |                                 |
|    |    |               | the interim, but some professional ventilation review    |                                 |
|    |    |               | should be made to determine if there is a system problem |                                 |
|    |    |               | at the machines and repairs should follow for the long   |                                 |
|    |    |               | term.  |                                 |
|    |    |               | A CONFERENCE ROOM CONNECTED BY A DOOR                    | New Room Service Pantry         |
|    |    |               | TO THE ROOM SERVICE BELL BOX IS STILL                    | is currently under              |
|    |    |               | BEING USED AS A ROOM SERVICE PANTRY,                     | construction.                   |
|    |    |               | WITH REFRIGERATED TROLLEYS, FOOD AND                     |                                 |
